NCX

The Data-Driven Forest Carbon Marketplace
NCX

Overview:
- The most important aspect of our Natural Capital Exchange: Landowners
- What makes NCX unique
- How do landowners enroll?

Frequently asked questions:
- How much will a landowner get paid?
- Is your program registered with a 3rd party registry?
- How should foresters engage with the program?
- Other FAQs

NCX is Built On Basemap

"Basemap is the first ever high-resolution forest map of the entire US. It estimates the sizes and species of trees on every acre of forest in America."

THE TRUSTED FOREST CARBON MARKETPLACE

What makes NCX Unique?

1-year contracts

$0 enrollment fees

No minimum acreage

Forests provide trillions of dollars of value to society.

The vast majority of that value is neither measured nor paid for.

Timber

Carbon

Water

Biodiversity & wildlife habitat

Wildfire risk reduction

Winter 2022:

Over 10M
Acres assessed across 48 states

Over 4,000
Landowners requested assessments

Over 1,700
Landowners accepted into the cycle

NCX

1. Measurement and Enrollment

We use **satellite-based measurements** of **every forest acre** to create a data-driven "business as usual" scenario. NCX provides any landowner with a **free report** on eligible carbon for their property.

2. NCX Marketplace

Landowners **bid a price** to **defer some or all harvests** for **one year.** We use a reverse auction to match supply and demand.

3. Harvest Reduction

NCX **monitors and audits** deferred timber harvests after each year. We then issue payments to landowners and credits to buyers.
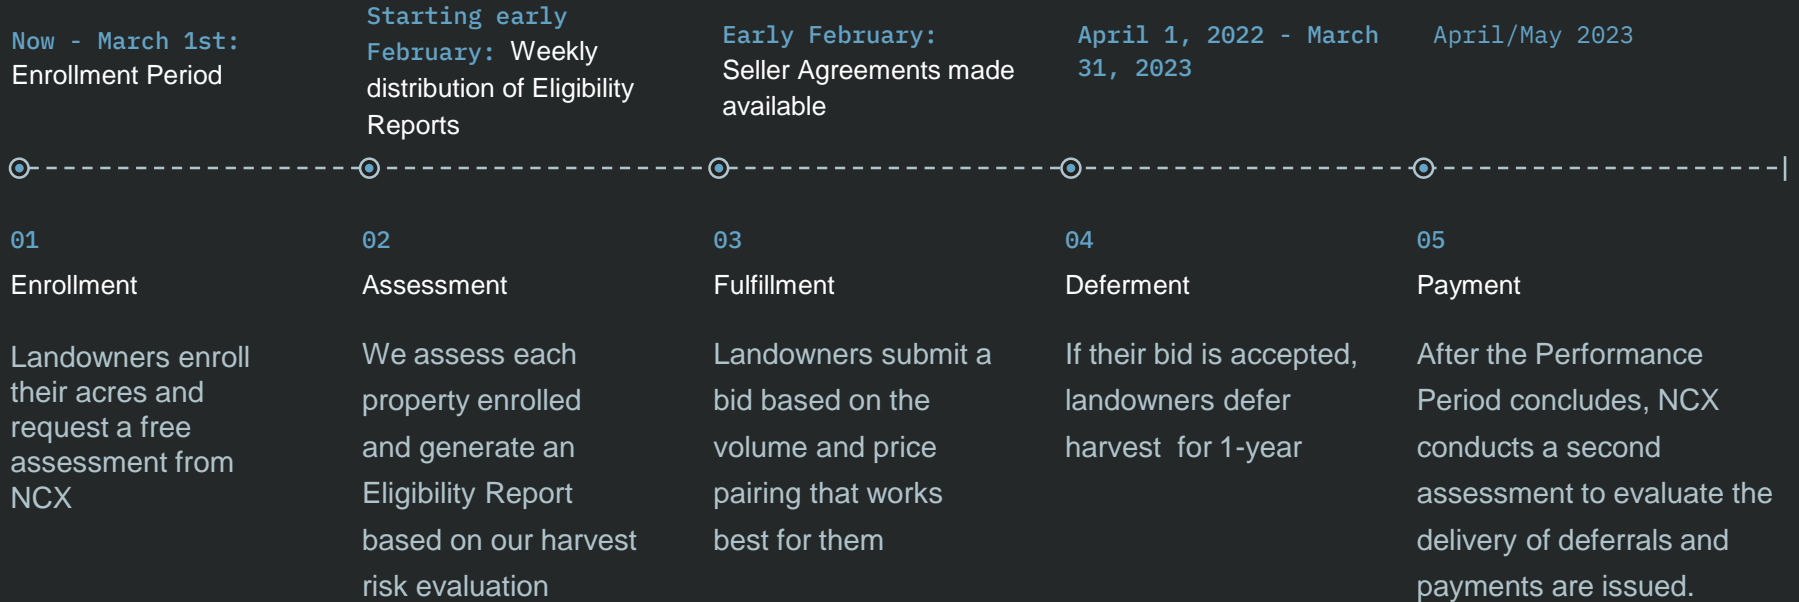

NCX

Why should I join?

Motivations are highly individual, but some of the recurring themes we've heard include:

- Yearly income instead of waiting for trees to mature

- Easy to implement into management plans & thinnings are permitted!
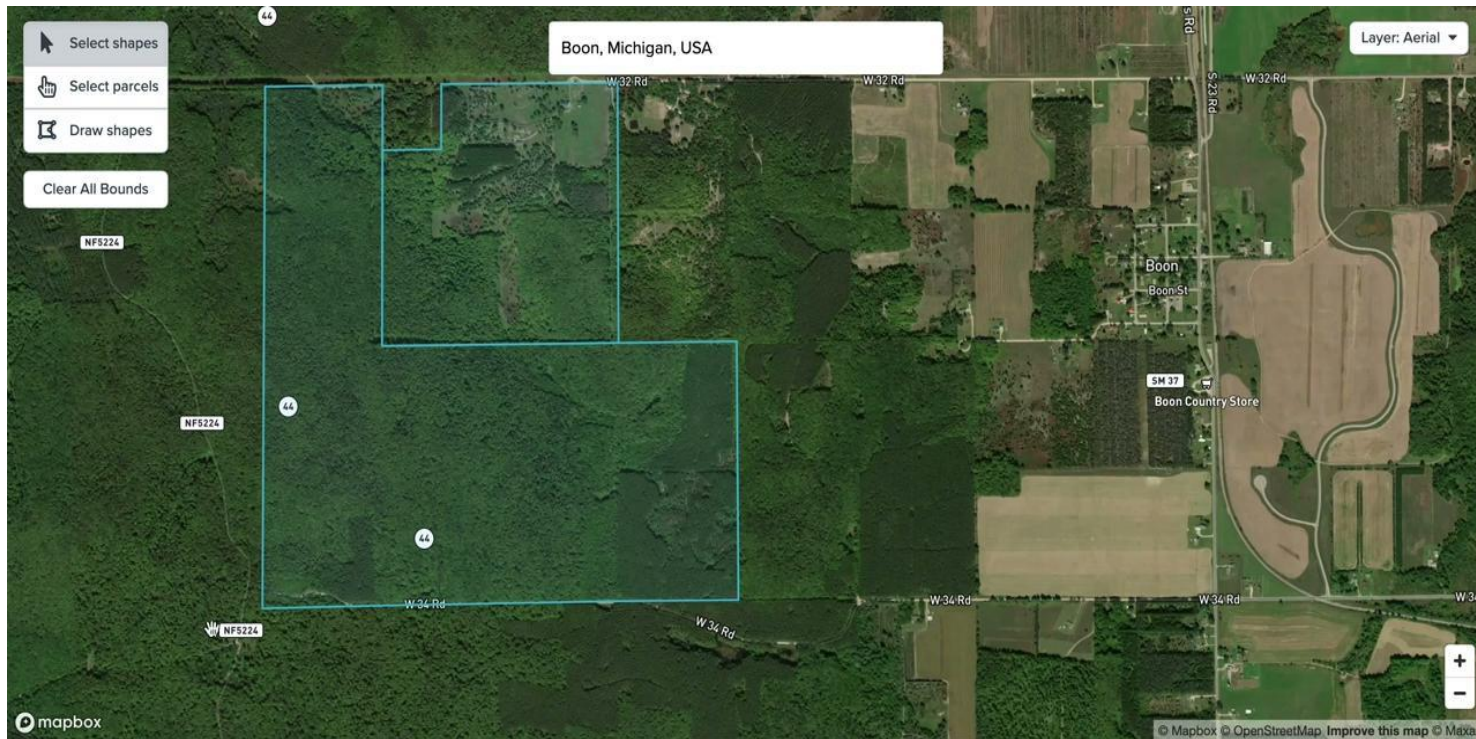

- Environmental impact

NCX

5 Simple Steps

Now - March 1st:
Enrollment Period

Starting early February: Weekly distribution of Eligibility Reports

Early February:
Seller Agreements made available

April 1, 2022 - March 31, 2023

April/May 2023

01

Enrollment

Landowners enroll their acres and request a free assessment from NCX

02

Assessment

We assess each property enrolled and generate an Eligibility Report based on our harvest risk evaluation

03

Fulfillment

Landowners submit a bid based on the volume and price pairing that works best for them

04

Deferment

If their bid is accepted, landowners defer harvest for 1-year

05

Payment

After the Performance Period concludes, NCX conducts a second assessment to evaluate the delivery of deferrals and payments are issued.

NCX

Signing up for a free assessment takes 5-10 minutes

1. Eligible landowners should visit **landowners.ncx.com** to create their landowner account

1. Participants will be asked to provide general contact and property information

1. Landowners will then submit boundaries for **all** of the property under their ownership, review enrollment documents, and submit their request for an assessment
